1	I am lucky to have him as my instructor and I am sure everyone is happy for being JJ's student.	Q
---	---	---

Q20 - What was unique or engaging about this course?		
Response Rate: 40.00% (2 of 5)		
1	It increases my understanding of economical issues in this modern world	
2	I liked the textbook used, it was very modern and helpful	

Q21 - Please list one or two suggestions you have for improving this course the next time it is offered.		
Response Rate: 60.00% (3 of 5)		
1		
2	It's perfect	
3	I think the class could use some more hands on or engaging parts of the lecture like the polls we tested out. Two hours (and four days a week) is a lot of lecture time for one class, I think more student-engaged activities mixed with lectures would be helpful for focusing.

1	Though the exams were a fair representation of what was taught, I found that the multiple choice was a little hit/miss and unforgiving.	
2	The textbook is really good	
3	The textbook that we used was very good.	
4	I think the rating is quite fair, because different aspects account for different percenatge.	
5	I feel like I learned a lot in this class but it was hard as a student who was new to economics.

1

Very inspirational

2

The professor was very good at explaining complex topics and relating them to the real world.

3

The lectures went over through the slides were a little bit fast, so it is hard to follow.

4	One of the best prof I've had. He knows the material well but in some sense he's too smart to teach introductory economy. He thinks like a professional economist, which it can be hard for students to follow up his thinking route espically since he have a pretty fast teaching pace in general. Other than that, he comes prepare for class, he's somewhat passionate to teach the class, lectures are VERY informative, homework/assignments helps aid leaning, and he's considered helpful and reachable outside of classroom.	
5	He is a fascinating teacher that can help raise the interest in class.	
6	Absolute pleasure to have taken a course with this Professor.
