1	very good class i would not recommend a change	
2	This is a class you have to study for (especially in the summer) because the concepts can get confusing.

1	very good teacher	
2	Professor Naddeo is one of the most laid back professor's I have met in my life. He is approachable at anytime and is willing to meet with you outside of class. However, I feel as he rushes through the lesson and you are not able to grasp the content. I feel as I was not able to comprehend because I would move so fast.	
3	I don't have any basic knowledge of economics. that's probably the reason I just don't understand concepts.	
4	Core Econ was a very different way of teaching this class. As someone who has taken AP Econ, I was surprised about how little my previous macroeconomics experience translated to this class. A lot of the content seemed to be a level higher than an intro course, and when asking for help, even my upperclassmen friends did not know the material that was being taught. However, I am hopeful that the things I have learned in this course will aid me in future, more advanced business and econ classes.

1	nothing should change well ran class i enjoyed it	
2	Mr. Naddeo is a great teacher that is always willing to help. Although his voice is monotonous, he tries to be as engaging as possible.	
3	He's pretty funny and always makes himself available to answer anybody's questions. Though again, I feel like the amount of content (especially heavy due to Core-Econ) that he had to fit in 5 weeks made the class sometimes feel rushed or leaving students confused.	
4	Gave you all 5s
